

Climate

Choose any 3 activities to complete in the Tic-Tac-Toe menu below. The 3 activities you choose must form a Tic-Tac-Toe 3 in a row either across or down.

No diagonal Tic-Tac-Toes will be allowed.

<input type="checkbox"/> <p style="text-align: center;"><u>5 Factors</u></p> <p>Create a Prezi or an infographic in which you identify and describe the 5 main factors that determine climates.</p>	<input type="checkbox"/> <p style="text-align: center;"><u>Climate Zones</u></p> <p>Research the 3 climate zones. In a PowerPoint presentation, identify and describe each climate zone. Identify and describe the biomes found in each climate zone. Be prepared to present to the class.</p>	<input type="checkbox"/> <p style="text-align: center;"><u>Climate Change</u></p> <p>Create a news report in which you present and describe 4 different theories that attempt to explain why the Earth's climate has changed. Be prepared to present your report "live" to the class <u>or</u> pre-record your report.</p>
<input type="checkbox"/> <p style="text-align: center;"><u>Climate Change</u></p> <p>Create a poster in which you summarize 4 different theories that attempt to explain why the Earth's climate has changed.</p>	<input type="checkbox"/> <p style="text-align: center;"><u>FREE CHOICE: 5 Factors</u></p> <p>Your teacher must approve your Free Choice!</p>	<input type="checkbox"/> <p style="text-align: center;"><u>Climate Zones</u></p> <p>Create a children's book with information about the 3 climate zones. Your book should help the reader identify and describe each zone and help them identify and describe the biomes found in each zone.</p>
<input type="checkbox"/> <p style="text-align: center;"><u>Climate zones</u></p> <p>Create a travel brochure to persuade travelers to visit a location in each of the 3 climate zones. You should identify and describe each climate zone, and describe the different biomes found in each climate zone.</p>	<input type="checkbox"/> <p style="text-align: center;"><u>Climate Change</u></p> <p>Create a movie in which you present and describe 4 different theories that attempt to explain why Earth's climate has changed. Be prepared to present it to class.</p>	<input type="checkbox"/> <p style="text-align: center;"><u>5 Factors</u></p> <p>Create a product cube in which you identify and describe the 5 main factors that determine climates.</p>

Check the boxes you plan to complete. They should form a Tic-Tac-Toe across or down. All products are due by: December 1 .
