

Human Impact on the Environment: Tri-fold Brochure Layout

Standards: SC.7.E.6.6: Identify the impact that humans have had on Earth, such as deforestation, urbanization, desertification, erosion, air and water quality, changing the flow of water.

Assess and explain human activities that influence and modify the environment such as global warming, population growth, pesticide use, and water and power consumption.

Materials: Sheet of paper folded into equal thirds, colored pencils
